Dear Venki Sir,

I understand and respect the importance of following the academic guidelines and submission deadlines for the WILP programme. I would, however, like to respectfully bring my specific concern to your attention.

I submitted the Declaration Form on **10 August 2026**, with my **name, ID number, date, and other required details properly filled in**. I am therefore concerned because I am still receiving communication indicating that my declaration/submission has not been completed.

I am also currently facing an issue where I am **unable to see/access my Mathematics assignment properly on Taxila/Teams**, including the relevant assignment and upcoming event details. I have attached screenshots for your reference so that the issue can be verified.

I fully understand that work pressure cannot be considered an excuse for missing academic requirements, and I am not requesting an exception to the stated rules. My concern is specifically about whether my submission has been correctly recorded and whether there is a technical/access issue with the assignment visibility on the platform.

I am working alongside my professional responsibilities and am genuinely trying my best to manage the academic requirements and deadlines. I would therefore sincerely request you to kindly review my particular case and help clarify:

1. Whether my Declaration Form submitted on **10 August 2026** has been successfully recorded.
2. Why I am still receiving communication indicating that it has not been submitted.
3. Whether the issue with the Mathematics assignment visibility on Taxila/Teams is a technical or access-related issue.
4. If any action is required from my side, please let me know so that I can complete it correctly within the prescribed process.

I completely understand the need for discipline and adherence to deadlines. At the same time, I kindly request that genuine technical or submission-related concerns be considered separately from cases where a participant simply overlooked the requirements.

I would be grateful if you could please look into my case based on the attached screenshots and guide me on the appropriate next step.

Thank you for your time and understanding.

Regards,

Vinod Tiwari
